

The only radio station you will find on in my car is K-Love. My children love the positive and encouraging music found on K-Love. There are not alot of options for christian music on "Normal" FM channels. I know K-Love has impacted my community in a positive way and there are hundreds of thousands of people who listen to K-Love. K-Love promotes our churches Harvest Festival every year and last year we had over 2500-3000 people participate at no cost to them. We are expecting over 3500 people,alot of inner city children come as we give away bikes,DVD players. The majority of who show up only hear of this due to K-Love. Thank you for your time.
